

Pattress boxes 1004 - 1005 - 1006 - 1066

The original...

... since 1966 - with improved geometry for installation in combustible walls and cavity walls

372 101 747 - 1004
(compatible with sealing plate
372 800 007 - 1004/3-1)

372 104 747 - 1005

372 204 747 - 1006

372 107 847 - 1066

The proven junction box for every type of wall

The robust design means that the boxes are ideal for concrete construction.

Pipe feedthroughs

The boxes feature several M20 and M25 pipe feedthroughs on each side.

The covers can be easily removed using light pressure or with a tool.

Pegs on the side walls prevent the feedthroughs from being pressed against the opposite side.

The pipe feedthroughs have a small groove that fastens to the corrugated tube.

Dividers

The double and triple boxes include dividers that give the boxes enormous dimensional stability.

This is important in particular for concrete construction.

Glow wire testing

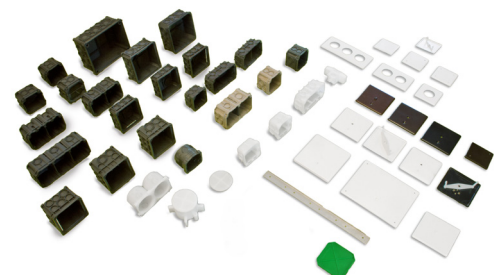

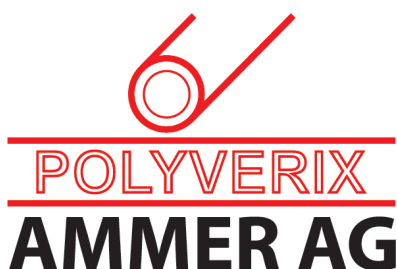

All boxes meet the glow wire test (GWT) up to 850°C according to EN 60670.

They are thus suitable for concrete, masonry as well as wooden and hollow walls.

Colour, material

Dark grey, HDPE (halogen free), flame retardant

Item No.	Ammer No.	Units	Description	Dimensions (mm, LxWxD)	Feedthroughs	Size
372 101 747	1004	100	Pattress box single, GWT 850°C	70 x 70 x 55	8x ø20 / 2x ø25	1 x 1
372 104 747	1005	60	Pattress box double, GWT 850°C	130 x 70 x 55	6x ø20 / 4x ø25	2 x 1
372 204 747	1006	60	Pattress box double, GWT 850°C	130 x 70 x 55	8x ø20 / 2x ø25	2 x 1
372 107 847	1066	40	Pattress box triple, GWT 850°C	188 x 70 x 55	12x ø20 / 8x ø25	3 x 1
