

Dividers 1031 - 1038

372 800 047 - 1031

372 800 147 - 1038

Dividers

The dividers lend the boxes dimensional stability, which is greatly important above all in concrete construction. Depending on the installation, the divider can be removed after concreting, thus creating more available space.

The 1031 divider features an arch for cables to pass through. The 1038 divider closes off the compartments from one another completely.

Glow wire testing

The dividers meet the glow wire test (GWT) up to 850°C according to EN 60670.

They are thus suitable for concrete, masonry as well as wooden and hollow walls.

Colour, material

Dark grey, HDPE (halogen free), flame retardant.

Item No.	Ammer No.	Units	Description	Compatible with
372 800 047	1031	100	Divider, GWT 850°C	1005, 1066
372 800 147	1038	100	Divider, GWT 850°C	1006
